

# RHV SERIES

RAEMOTORS  
CORPORATION

115 VOLT AC INPUT

0-130 VOLT DC OUTPUT

MAXIMUM CURRENT RATING  
TO 3 AMPS

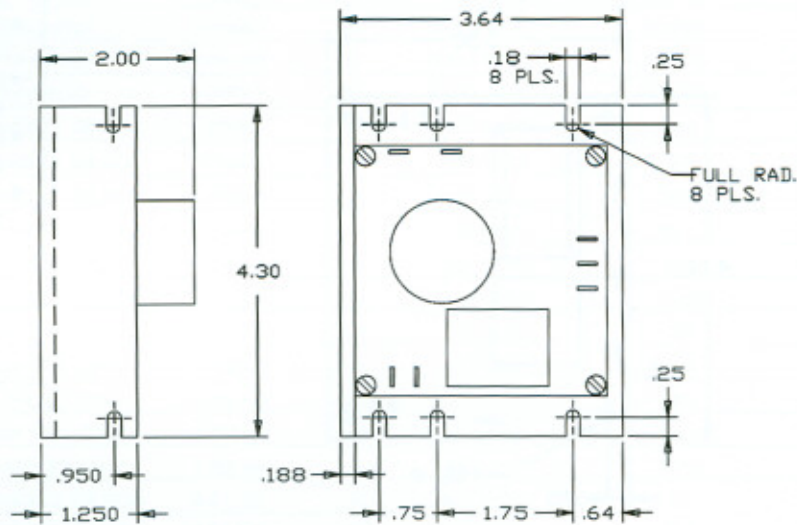

5K OHM INPUT REFERENCE POT

## DESCRIPTION:

The RHV135 Controller is a high voltage PWM variable speed DC motor drive, designed for 115 VAC input, 0-130 VDC output and is rated for 3 Amps continuous duty operation.

## FEATURES:

- FET PWM Design
- Single Direction Operation
- Smooth Linear Acceleration
- Adjustable Maximum Speed
- Custom Designs Available
- Some Models Available From Stock. See Page 23
