**Item # 910-0000-000, SC-Low Cost SCR Controller**

---

**SC-Low Cost SCR Controller**

The model SC is a 115 VAC input 0-90 VDC output economical motor controller where good performance at very low cost is desired. The SC is rated for 5 Amps continuous output current and operates in a single direction. On-board potentiometers provide master speed control and smaller potentiometers are available to set min/max speed control limits. Fixed 200% current limit and transient protection round out this small rugged package. Great selection for open frame OEM speed control applications of permanent magnet DC motors.

---

**SPECIFICATIONS**

Model	SC
Input Voltage (AC)	115 V
Output Voltage (DC)	0 to 90 V
