Item # 910-3222-005, D130 - 2HP 220VAC SCR Regenerative DC Drive

D130 - 2HP 220VAC SCR Regenerative DC Drive

The IPC Automation model D130 220 VAC Input, 0-180 VDC 2 HP variable-speed output SCR motor drive provides four-quadrant half-wave control of DC motors in a variety of applications. Low cost design can be used in dancer-type, wire payout, web tension or other economical motor drive applications. Incorporating traditional IPC quality in a rugged package, the D130 offers smooth adjustable acceleration, adjustable forward and reverse current limit, adjustable pot position, and many other features for specialized or ganged operation. Fast reversing operation provides quick response and power savings. Simple hook-up.

SPECIFICATIONS

Model	D130
Power	2 hp
Input Voltage (AC)	220 V
Output Voltage (DC)	0 to 180 V
